

## Table of contents for a tourism development strategy

- 1** Description of the nature and quality of the destinations within the region, the current tourist and leisure amenities of the region, and their use (when, where, who).

- 2** Analysis of pressure and carrying capacity and the associated scope for development and challenges.

- 3** Opportunities and aims that offer added value to the region. Examples include the economy, nature conservation, level of amenities, accessibility and sustainability.

- 4** Selection of policy measures to manage tourism development.

- 5** Implementation agenda with agreements about the division of tasks and responsibilities between the parties and the monitoring method.
