

Survey of Technological Innovations in the Living Environment

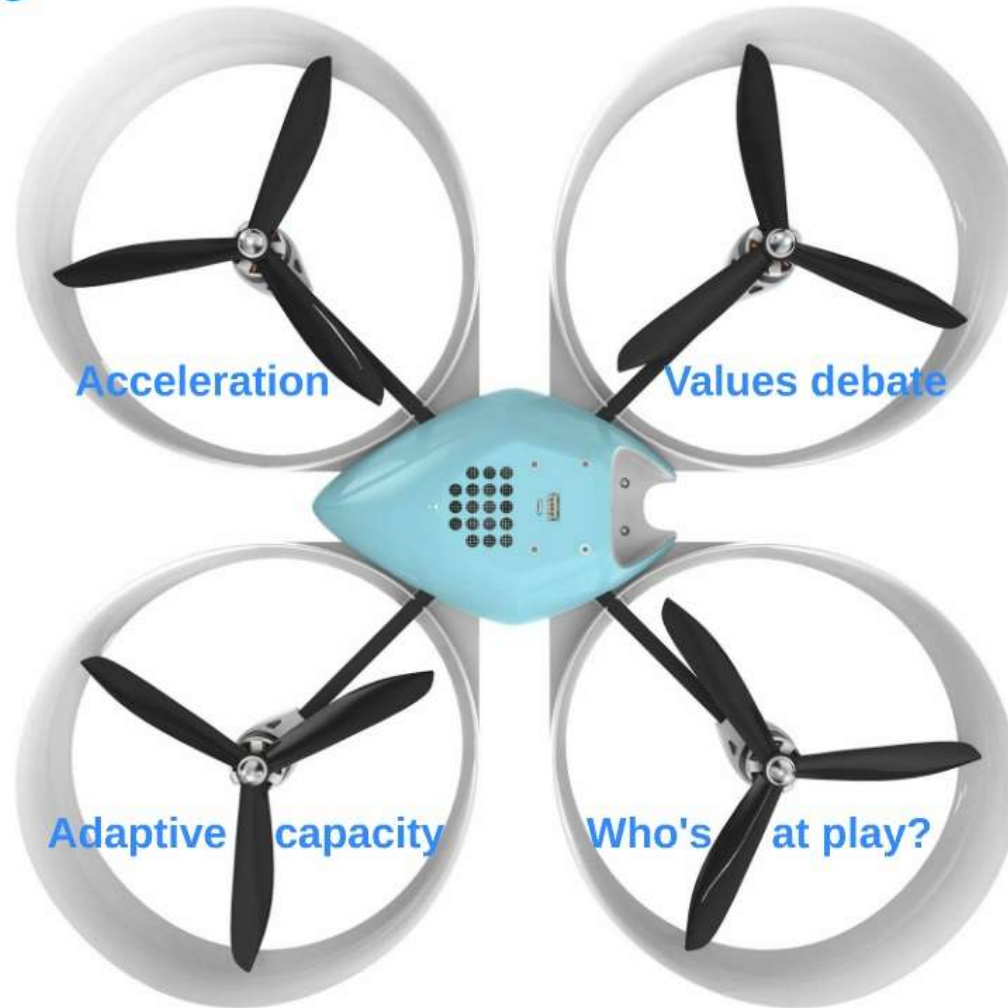

Agnes van Ardenne - van der Hoeven
Council for the Environment and Infrastructure

"We are crossing a threshold"

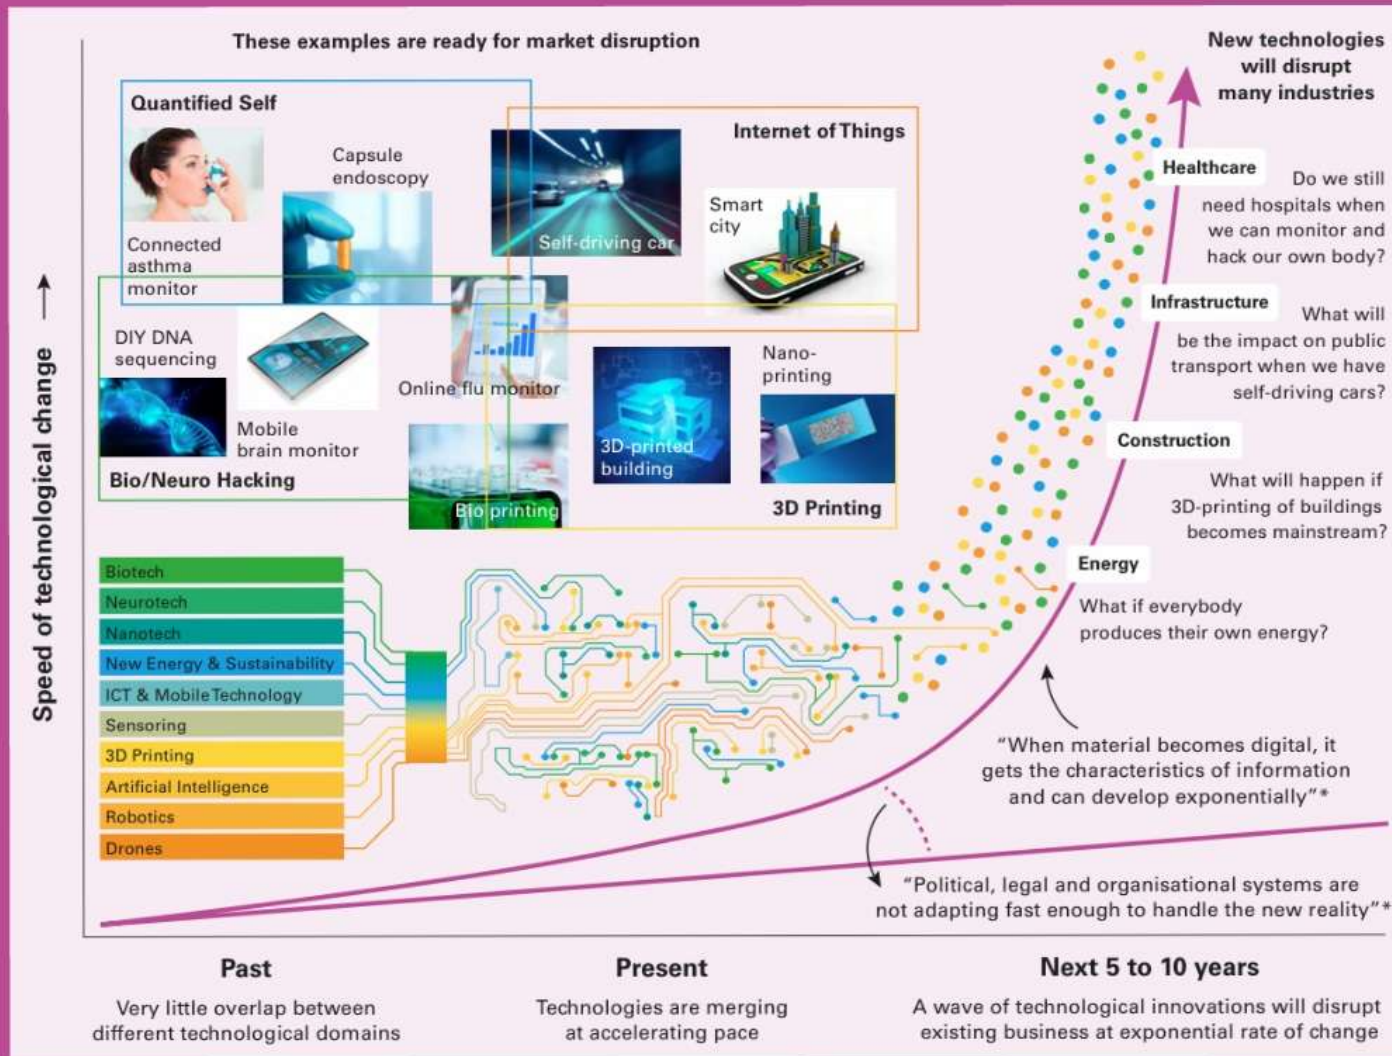

Survey of Technological Innovations in the Living Environment

Dynamics of networks

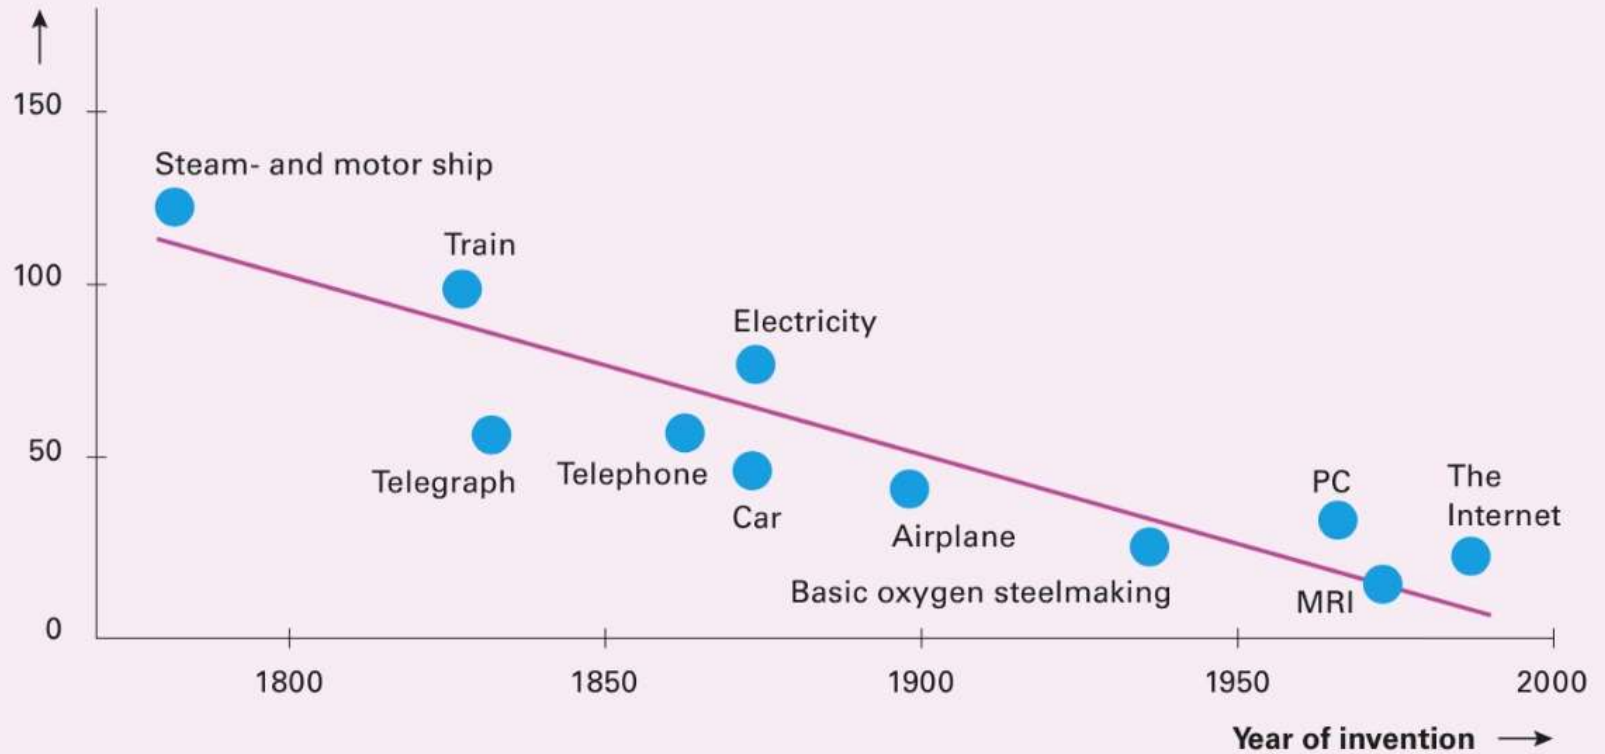

Acceleration

Adoption

Average time between invention and full rollout measured in years

Convergence

Healthy nutrition

Efficient mobility

Smart buildings

Who's at play?

Strengthening adaptive capacity

Next steps

Public interest data infrastructure

Securing values with data use

Impact on spatial planning

A broader social debate
